### 3) Reports

- PSA Topic- This year's topic will be *Where does your water come from?* Students will be required to explain the water resource portfolio of their local water service agency, including how they have access to each resource, and what careers are being fostered through the use of that resource. Teams are encouraged to reach out to their local water agencies for that information.
- Coachella Valley Water District will be sponsoring Cathedral City High School and Desert Mirage High School.

#### **4) Additional Items/ Discussion**

- Rule Changes- The Committee has been working on some modifications to the rules as a result of some instances occurring at the 2023 event. These rules will be provided by the Boat Build event and will be shown with track changes so it is apparent what has been changed.

- Schools confirmed present: Banning High School, Rialto High School, Desert Mirage High School, Colton High School, Cajon High School and Yucaipa High School.
