

ISC Meeting Agenda

Kick-off Meeting with ISC Teachers

9/12/2019 4:00 PM | YVWD-Crystal Creek

1) Welcome and Introductions

This year's solar challenge event will mark the 10th anniversary.

2) 2019 Event Recap

- a) Suggestions
- b) Comments
- c) Questions

3) 2020 Inland Solar Challenge Event

- a) May 15-17, 2020

Technical inspections will have time slots for each team. The boat float video should also help prepare teams for the upcoming technical inspections. The scheduled time slots for the technical inspections will take place during the boat build.

The first couple years of the ISC event, a technical inspector visited each school to determine how prepared each team is for the event. Doing an onsite technical inspection for each school will help save time during the inspections at the event.

4) 2020 Rules

- a) Discussion of rule changes

Rule changes and additions were discussed. The updated rules are on the Solar Challenge website for students and teachers to review.

- b) Update on total points possible

The updated points are also defined within the rules and located on the website.

- c) Late penalties

Late penalties need to be enforced to hold teams accountable toward deadlines and boat safety.

5) Conservation Report Topic- Recharging Communities with Groundwater

- a) PSA Video

The video time limit has been extended from 80 seconds to 160 seconds in order to give students more time to convey their message.

- b) Introduction

6) Review Timeline of Events

- a) Boat Build

The boat build is mandatory. There will be a tour after the boat build of the Yucaipa Valley Water District Filtration Facility.

- b) Technical Workshop

7) Due Dates

- a) Videos – April 13, 2019
- b) Reports
- c) Waivers

8) Report and Waivers Submittals

- a) Late penalty
- b) File requirements
- c) ISC Website

9) Draw numbers

- a) Slalom
- b) Sprint
- c) Endurance

It was decided to draw numbers at the boat build.

10) Additional Items/ Discussion
